

HillTop Interiors

YOUR HOME. YOUR LIFE. YOUR STYLE.

1150 Highway 141 • Rosseau

Inspired by the shores of Lake Rosseau and fuelled by their belief in family and community values; HillTop Interiors was dreamt of and created by long-time cottagers, husband and wife team Randy and Lena Patten.

With a desire to provide these services with respect to both aesthetic quality and intrinsic value, Lena and Randy have created a successful business that caters to seasonal and permanent residents of the area.

Connection to the past and to the local community inspired the couple to purchase the century old building that houses HillTop Interiors in 2000. Utilizing the existing architecture they transformed the building into an oasis of warmth epitomizing Lena's vision of traditional Muskoka style.

In 2002 Randy and Lena added to the existing property while still maintaining the traditional cottage atmosphere. This addition included a storage facility that was built to replicate a carriage house in keeping with the village's authentic olde Muskoka architecture.

PEOPLE ARE SURPRISED TO KNOW:

People are surprised to know that we are open all year-round. Many people also don't know that in addition to the store we have a carriage house out back and another warehouse with lots of inventory in stock. They are always surprised at the extensive selection of lamps.
